Product #	Size	Total Units (Per Sqcm)
ADL-0202	2x2	4
ADL-0203	2x3	6
ADL-0404	4x4	16
ADL-0406	4x6	24
ADL-0408	4x8	32
ADL-0710	7x10	70

The **Acesso DL Membrane** is an amniotic allograft providing a wound covering and support for native tissues. The product is indicated for full and partial thickness, chronic, and hard-to-heal wounds. Our manufacturing practices strictly comply with both AATB guidelines and FDA regulations, with minimal processing that preserves tissue structure. The allograft is then dehydrated and terminally sterilized. **Acesso DL Membrane has been confirmed by the FDA Tissue Reference Group to meet regulation criteria solely under Section 361 of the PHS Act as defined in 21 CFR Part 1271.**
