

SURGRAFT^{TL}[®]

TRIPLE LAYER MEMBRANE

THE SURGRAFT TL MEMBRANE IS A TRIPLE LAYER AMNION DERIVED ALLOGRAFT OPTIMIZED FOR WOUND COVERING, PROTECTION, AND ADVANCED WOUND TREATMENT.

THE SURGRAFT TL ADVANTAGE

Increased tissue adherence • Greater strength and ease of handling
Safe and effective up to 5 years from date of manufacture

ORDERING INFORMATION (Q4263)

Product #	Size	Total Units (Per Sqcm)
STL-0101	1x1	1
STL-0102	1x2	2
STL-0202	2x2	4
STL-0203	2x3	6
STL-0204	2x4	8
STL-0404	4x4	16
STL-0406	4x6	24
STL-0408	4x8	32
STL-1215	12x15	180

The SurGraft TL Membrane is a triple layer amnion membrane and has better tissue adherence than a single or double layer amnion membrane, which means that it is more likely to stay in place and promote healing. The product is indicated for full and partial thickness, chronic, and hard-to-heal wounds. Our manufacturing practices strictly comply with both AATB guidelines and FDA regulations, with minimal processing that preserves tissue structure and is intended for homologous use. The allograft is then dehydrated and terminally sterilized. SurGraft TL Membrane has been confirmed by the FDA Tissue Reference Group to meet regulation criteria solely under Section 361 of the PHS Act as defined in 21 CFR Part 1271.
